

Revised Draft Goals and Objectives for Bolinas Lagoon

September 27, 2006

Lagoon Goal

Maintain the lagoon in an ecologically healthy condition.

(Replaces Goal 1 of the 1996 Bolinas lagoon Management Plan Update: "Preserve and restore the ecological values of Bolinas Lagoon")

Project Goal

Minimize and reverse sediment accumulation in Bolinas Lagoon that has been exacerbated by human activities and affected the lagoon's natural evolution and its ecological, social, and cultural values.

Objectives

1. Monitor the condition of the lagoon and determine appropriate management activities
2. Extend the longevity of existing tidal and subtidal habitats
3. Reestablish lost tidal and subtidal habitats
